General Studies Bldg C1107*

## **Start transfer planning from DAY ONE.**

Allow time to research 4-year colleges that match your needs while completing your NeSCC Degree!

1

## **MAJOR decision.**

It's important to understand degree/major requirements, especially in highly competitive acceptance programs (ie, nursing).

2

## **Find BALANCE, quickly.**

Discover what works for YOU.  
Daily — PRIORITIZE & stay FOCUSED.  
Identify & eliminate time zappers.

3

## **Dive into TRANSFER EVENTS.**

- TRiO-sponsored 4-year college visits
- College Transfer Day at NeSCC (fall semester)
- ETSU Day at NeSCC (fall semester)
- Recruitment visits by 4-year college representatives to NeSCC (fall/spring)

4

## **ZERO TIME for Procrastination.**

Complete & submit 4-year college admissions & scholarship applications well before deadlines. The earlier you apply, the better! Applications require essays, references, transcripts...start building your portfolio today!

5

## **MONEY Matters.**

Don't let the price tag rule out a 4-year college. Financial aid & scholarships are available for a reason! Good grades pay!  
Apply for FAFSA on October 1st every year.

6

## **HOME away from HOME.**

Some universities have limited transfer housing. If you want to live on campus, apply ASAP after you are admitted. Want to live off campus? Begin looking for housing nearby.

7

## **SIGN UP for orientation & enroll.**

Even if your 4-year college doesn't require orientation for transfer students, it's an easy way to get lots done in a short period of time.

8

“University Parallel” refers to TRANSFER DEGREES at Northeast State Community College. TRiO SSS strongly advises participants to graduate from NeSCC prior to transfer.

Associate of Arts & Associate of Science University Parallel Degrees are viewed favorably by 4-year colleges and opens the door to scholarship opportunities!  
An NeSCC Degree is a great first-impression (demonstrates your commitment, abilities and seriousness about your academic career!)

*Remember, you can attend any university, anywhere in the world, but the classes you take may transfer differently depending on the university.*
