

Where to Access eTextbooks

1. If you are teaching a course that does not use an access code, the eTextbook will be located in D2L, under your course by clicking the VitalSource Textbook link.
2. If you are teaching a course that uses the following: MyMathLab, MyStatLab, MyACCTLab, MyITLab, REVEL, or any other Pearson access code: You will have an access code that has been emailed out to the division dean. If the students do NOT Opt In, their access to that code will be removed and they will have to enter in a code that they have purchased themselves.
3. If you are teaching a course that uses the following: MindTap, Cengage Now, WebAssign, iLRN, or any other Cengage access code: Students will use the 14 day free trial that is associated with the access code. If the student Opts In, they will receive an email from the Bookstore with an access code for them to input. Please note that the email will go to their Northeast State email address.
