TABLE 7: Business Unit Performance Results (Standard 6)

Complete the following table. Provide three or four examples, reporting what you consider to be the most important data. It is not necessary to provide results for every process.

<table>
<thead>
<tr>
<th>Performance Measure:</th>
<th>Analysis of Results</th>
</tr>
</thead>
<tbody>
<tr>
<td>What is your performance measure? What is your goal? (The goal should be measurable.)</td>
<td>Action Taken or Improvement Made: What did you learn or what is your next step? Provide a graph or table of resulting trends (3-5 data points preferred)</td>
</tr>
</tbody>
</table>

EXAMPLE:
Increase retention from 80% to 90% by 2020

| Retention rates as reported to the VPAA every January | In a positive trend for the last three years | Will have three meetings a year with business students regarding continued education and completion plans |

Enrollment for Office Administration Technology concentrations will maintain FTE rates per concentration: General: 20 Legal: 10 Medical: 62

| Five-year Enrollment History-- Five-year enrollment history is maintained for each of the three Office Administration concentrations. Analysis of trend data reveals five-year average FTE rates per concentration: General: 25.6 Legal: 10.4 Medical: 79.6 | FTE goal rates are consistently being met for all concentrations within the major. No action is needed at this time. |

- Please note that data reported in this table should be business unit data and not institution-wide data.
- If for any given performance measure your goal is being exceeded repeatedly, consider either increasing the goal or changing the performance measure so that action can be taken to improve the program.
- For all data reported, show sample size (n=75).
### Performance Measure

**What is your performance measure?**

What is your goal? (The goal should be measurable.)

**What is your measurement instrument or process?**

(Indicate length of cycle)

### Current Results

**What are your current results?**

### Analysis of Results

**What did you learn from your results?**

### Action Taken or Improvement Made

**What did you improve or what is your next step?**

Provide a graph or table of resulting trends (3-5 data points preferred)

#### Office Administration Technology

Graduation Rates—Five-year graduation rates are maintained for the three Office Administration Technology Concentrations.

An analysis of trend data over five years reveals the following average annual graduation rates per concentration:

- General: 6.4
- Legal: 2.4
- Medical: 25.2

The results illustrate graduation rates for each concentration exceed the goal range. The overall graduation rate for the major exceeds the expected graduation rate set by the College's governing body: 10

No action is needed at this time.

#### At least 75 percent of Office Administration Technology program’s graduates will be employed within one year in a position for which the program prepared them.

Job Placement Rates—Job placement rates are maintained by Career Services for each of the three Office Administration Technology Concentrations. Students are surveyed at the end of each academic year.

Office Administration Technology current results show a 91% to 100% job placement rate for 2015-16 (2014 graduates).

Job placement rates are consistently met for all concentrations within the major.

No action is needed at this time.

#### The enrollment for Business students will maintain the following FTE per concentration:

- Accounting - 40 FTE
- Management - 60 FTE
- Small Business Management - 30 FTE

Five-year Enrollment History—Five-year enrollment history is maintained for each of the three Business concentrations.

From Fall 2015 to Fall 2016, enrollment in the Accounting concentration declined by 10 students (26%). In the same timeframe, the Management concentration increased by 25 students (27%) and the Small Business Management enrollment increased by 5 students (9%).

Decline in Accounting enrollment is offset by the increase in Business Management and Small Business Management enrollment. Students may be focusing on a more generalized course of study.

No action is needed at this time. However, the downward trend in Accounting concentration enrollment will be monitored more closely.

</table>

**Analysis of Results**

The number of business graduates will be at least the following annual per concentration:
- Accounting: 5
- Management: 10
- Small Business: 3

Graduation Rates-- Five-year graduation rates are maintained for the three Business Concentrations.

Current data (2015-2016) reflects the following number of graduates:
- Accounting: 3
- Management: 13
- Small Business Management: 10

Analysis of Results:
- Accounting graduation rates fluctuate from year to year with the number of graduates being 2 less than target in 2015-2016;
- Management and Small Business Management graduates exceeded the objective.

No action is needed at this time.

The business programs will meet the needs of regional employers as demonstrated by a 70% or greater job placement rate of program graduates.

At the end of the academic year, the graduates are surveyed by the Career Development Department.

The Business department had a job placement rate of 86% for Accounting Concentration graduates, and 100% for both its Management and Small Business Management program graduates.

The percent goal for job placement was exceeded.

No action is needed at this time.
