PATH TO SUCCESS

The Career Development Services Center offers free assistance to students and the general public in all aspects of career and educational planning. We encourage high school guidance counselors to utilize our free services to supplement the guidance and counseling services that students are already receiving through the school system. We are happy to work with high school counseling departments to develop a customized plan for how our career development services can be integrated into their current guidance practices. Some of the services that are currently available are:

- **Career Interest, Aptitude, and Values Assessments**, which can be done in a classroom setting or with individual students.
- **Classroom Workshops on Career Development Topics**, such as *Choosing a Career Path and College Major*, *Writing Your First Résumé*, *How to Appropriately Fill Out Job Applications*, *Successful Job Search Techniques*, *Job Interviewing*, etc.
- **Access to Win-At-Work**, an interactive, online employability skills program that students can work on at their own pace.
- **Individual Career Exploration**, which can be done at the high school or students can be referred to the Career Development Services Center for an appointment.

Please contact Mary Beth Oxendine-Woodby, Career Development Coordinator, for more information and to discuss ways your high school can partner with Northeast State's Career Development Services Center.
