

Creating a Link to a Website on the Home Screen of the iPad®

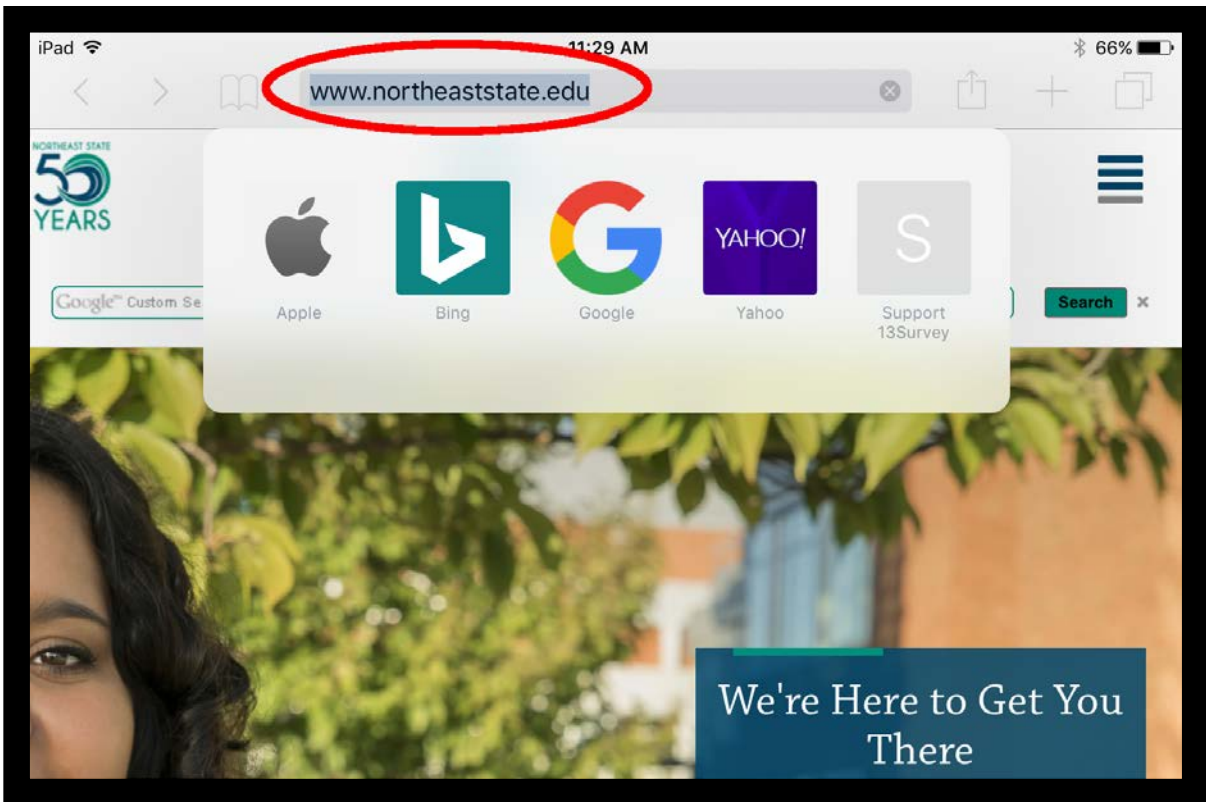

Step 1

Open the Safari web browser.

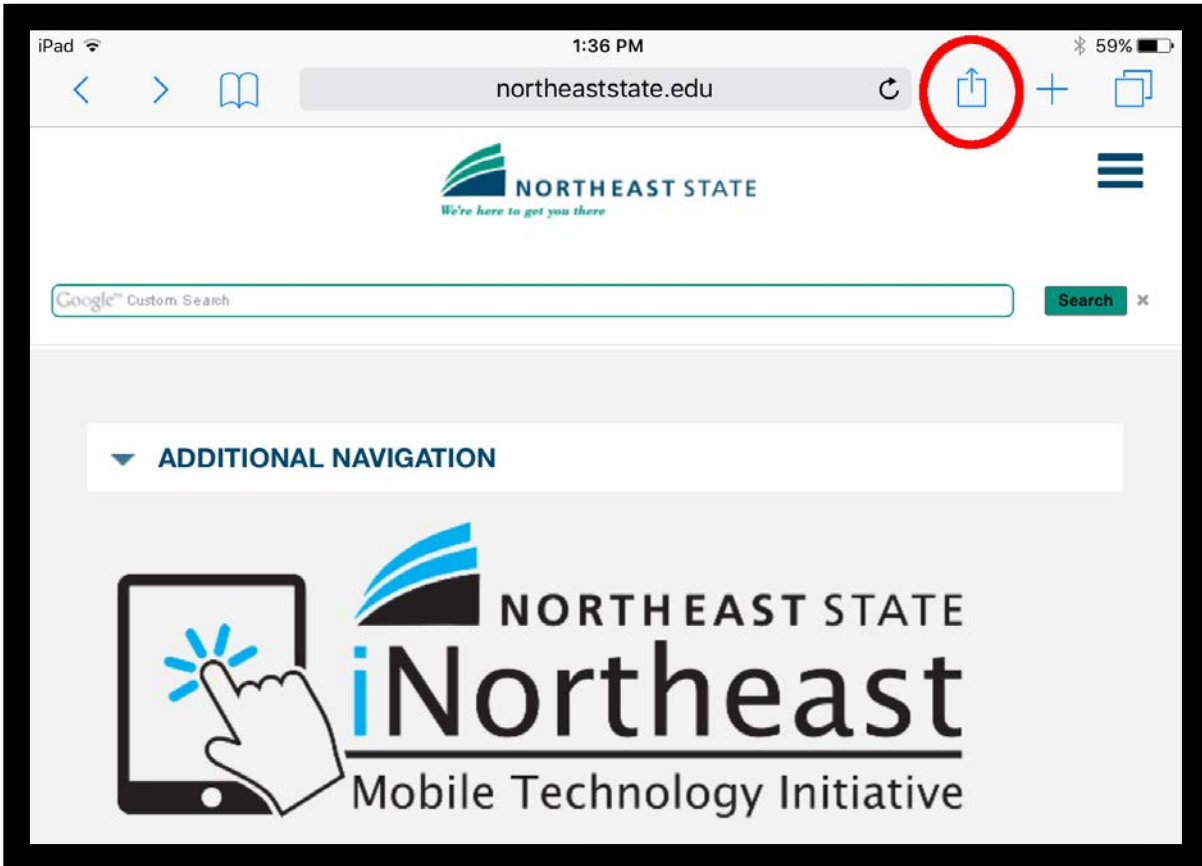

Step 2

Type the website address in the navigation bar and press enter.

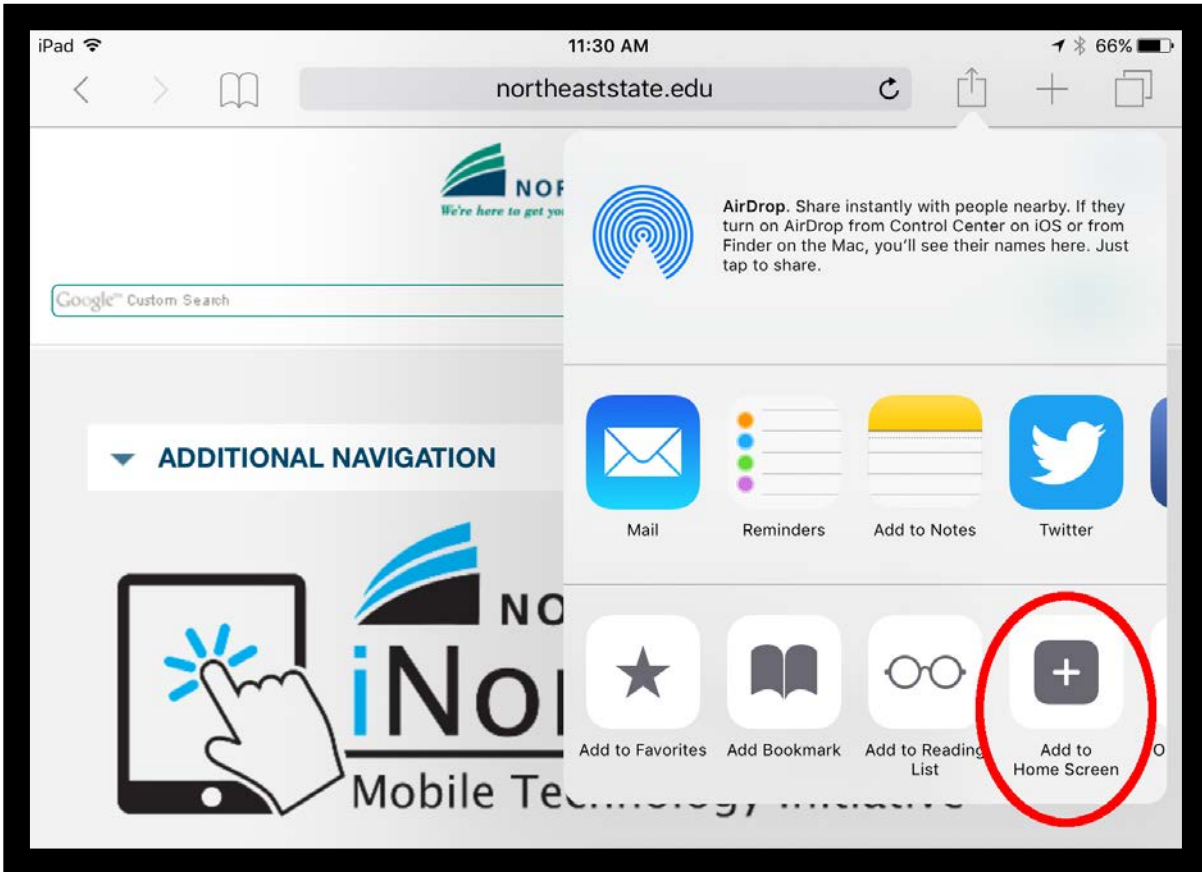

Step 3

Click the “Share” icon.

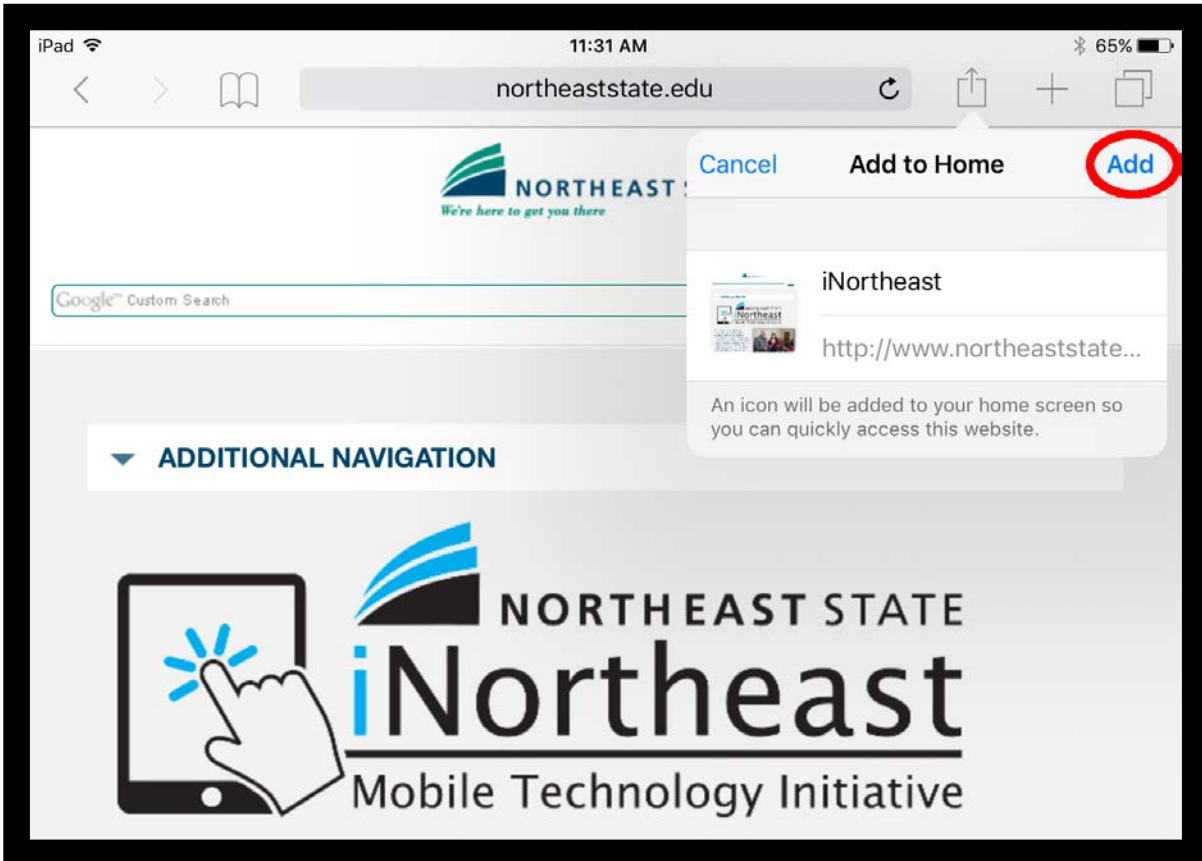

Step 4

Tap “Add to Home Screen”

Step 5

Click “Add”.

Step 6

The link should be added to the home screen. You may have to swipe left or right to find it on one of the home pages.
